

Case Study

Richmond Fellowship ACT Inc

Danny O'Neill

"We are a not-for-profit organisation which supports and empowers disadvantaged youth and adults trying to recover from mental health issues.

Problem

Due to the complex and challenging nature of the work, our managers need strong, clear leadership and communication skills to achieve strong teams and successful outcomes."

Solution

Danny and his management team needed easily implemented and useful strategies delivered with humour and enthusiasm. After careful consultation and thorough research, each workshop was delivered based on the Training2live five-step methodology:

'From NOW to WOW'.

Participants consistently rated the workshops highly and reported impressive success implementing these strategies with their teams.

Result

"With her dynamic approach, professionalism and unquestioned knowledge, Victoria has been instrumental in helping us build a strong and smart leadership group." - Danny O'Neill
